

HAPPY CAMPERS

IT DOESN'T MASK ODORS,
IT ELIMINATES THEM!

Happy Campers, Family Owned and operated by Darrell Wray. Started in 2000 in a small garage behind the home of Monty Wray in Medford, Oregon. The company expanded in 2002 with its first shop location in Medford, OR. The family never expected that the small start-up in the Garage of the late Monty Wray would become his legacy. A Family secret that has been passed down to generations and continues to thrive.

Happy Camper is sold in over 100 Dealerships and is available online at Amazon, view our website Happycampersworld.com for more details. The website includes a Dealer Tracker that allows you to find stores in your area.

Happy Campers is an Odor-Free Organic tank treatment that manages to break down waste and remove all odors for a smoother dumping process. Not to mention, it is effective in resolving that musty smell you get when driving down the highway to your next destination. You Heard Me! No more smells from your sink or shower as Happy Campers works to clean your grey tanks as well.

If you still need a little convincing that our product is the best in the business, give our Distributor

Ken Webber a call or text him at **(541) 773-3529**. Ken was brought on to help promote our product across the US just this year and has been using our product for many years with much success. Nothing says, "I Love this stuff" like joining the team in your retirement.

Our Amazon sales maintain a 5-star rating on a total of 10,000 plus reviews. Here are just a couple of them.

"Over the years we have tried every brand of RV black tank cleaner known to man. Keep coming back to Happy Camper as it works and is the best value for the money. One scoop is all it takes, never a problem, no special TP, no blank tank issues" - Verified Amazon Customer

"I heard about this product on an RV FB site. I had been buying stuff sold in department stores. This stuff Rocks! So MUCH better. The black RV tank does not smell at all! Don't let the price scare you! One cap full per 40-gallon tank will allow the container to last a long time! So happy with this product. Camping on 95-degree days without full hook-ups and no problem with smell! Absolutely will buy it again!!" - Verified Amazon customer
